INSURANCE

This is quite a feature of my business. I represent two strong and liberal companies, whose contracts are free from the usual numerous restrictions that some other companies have, which really have the effect of insuring the company instead of the insured.

No trouble to explain the policies and quote rates. ACCIDENT TICKETS—These are adapted to persons who do not desire yearly insurance, but who wish protection on short trips, etc. I issue them without written application, taking effect immediately.

I am agent at Bryan for the Oliver Typewriter, the only standard visible writing machine.

PLACE OF CONFERENCE

Capitol and Congressional Library Both Mentioned.

LATTER PREFERRED.

Japan Insists That Russia Choose as Plenipotentiaries Men of Statesmanship and Possess Confidence of Government.

Washington, June 17.—Impressive in dignity and number will be the missions which Russia and Japan will send to the Washington conference, for although the plenipotentiaries will be limited to two or three complete missions with their advisers and attaches and secretaries each, it is expected they will number twelve or more persons. The Japanese plenipotentiaries probably will be accompanied by army and navy officers of high rank, who will act as military advisers to the plenipotentiaries. In addition there will be secretaries and attaches—some of them from the diplomatic service, some from the foreign office, and others who will act as translators and recording secretaries. Russia probably will send a similar mission, though, perhaps, not so large, and both the Russian ambassador and Japanese minister at Washington will place at the disposal of their respective missions their secretaries and attaches.

The Washington government will furnish a suitable place of meeting for the conference as soon as the date for convening is fixed. Arrangements for quarters for the two missions will be made by the Russian and Japanese envoys here. There have been so many other important details to be settled the state department has not yet fixed upon the offices for the conference. In addition to the main conference room, retiring rooms, offices for secretaries and a reception room will be needed. The capitol and congressional library are regarded as perhaps the best suited buildings in Washington, and in view of the indefinite period which the conference may remain in session it has been suggested that perhaps the congressional library might be preferable to the capitol, for should some unexpected obstruction arise to keep the conference in session until late in the fall the convening of congress in extra session might necessitate the removal of the conference elsewhere. Whatever expenses are incurred incident to maintenance of quarters will, of course, be borne by the Washington government.

If M. Neldoff, Russian ambassador at Paris, comes to Washington as ranking Russian plenipotentiary his rank will equal that of Marquis Ito. At first there was some doubt in the minds of the Japanese as to whether M. Neldoff possessed sufficient rank for the mission of importance accorded the Washington conference in Japan.

Japan has not, of course, objected to the selection of M. Neldoff, but in view of her expressed intentions to select two or three "distinguished personages" she is desirous that Russia choose as plenipotentiaries men of rank and statesmanship who possess the confidence, not only of their own government, but other powers.

SINKING OF STEAMERS.

Strong Representations Made by British Government to Russia.

St. Petersburg, June 17.—Strong representations have been made here on behalf of Great Britain as the result of the sinking of the British steamers by Russian military cruisers. The steamer St. Kilda was sunk by the Russian auxiliary cruiser Dnieper June 5 in the China sea and was reported at the time of the battle of the Sea of Japan. The Russians sank a British steamer in the Straits of Formosa. Her name, however, has never been mentioned in cable dispatches, and it has been generally understood the report grew out of the capture by the Russians of the British steamer Oldhams, bound from New York March 26.

Forced to Retire.

St. Petersburg, June 17.—General Linevitch, in a dispatch to the emperor, dated June 15, reports that a Russian turning movement forced the Japanese to retire from Iulantzi June 11, after burning their supplies. Another Russian force June 12 advanced from the valley of the Tsin river to the village of Vanloangow, pushing back the Japanese advance outposts. The same day the Russian cavalry occupying Nanshantchener retired slightly northward.

Russia Wants The Hague.

St. Petersburg, June 17.—Russia expressed Saturday a desire to have selection of meeting place for peace conference changed. She prefers The Hague, claiming it is entirely neutral.

Passed Examination.

Wills Point, Tex., June 17.—A. N. Alford received a message from his son, Thalbert, from Annapolis, announcing that he had successfully passed the examination for entrance in the naval academy as midshipman. The appointment was given to him by Gordon Russell, congressman from this district.

FORWARD MOVEMENT.

Despite the Rainy Season a Battle Seems Probable.

CLOSING IN A CIRCLE.

General Linevitch, bewildered by the strategy of his wily opponents, is endeavoring to not be taken unawares.

London, June 17.—The practical certainty now that peace negotiations can not begin for another month leads to the conviction that another battle will be fought in the interval. According to the Daily Telegraph's Tien Tsin correspondent, a forward Japanese movement has already commenced in spite of the rainy season.

The Daily Telegraph's Tokio correspondent gives an interesting idea from a correspondent said to be in a good position to know the actual facts. This correspondent says that the principal depot is at Gunshu Pass, whence many light railroads are being constructed northward to facilitate retreat. General Linevitch, bewildered by the strategy of the Japanese, is making a reconnaissance and throwing out innumerable scouts. Nevertheless, at the present moment, the correspondent says, all his army is enveloped. The Japanese army has made a circle 100 miles around Linevitch, and is gradually closing in.

The Japanese military correspondent of the Morning Post says the Russian evacuation of Omoso shows that Gen. Kawamura's Army of the Yalu, despite the difficulties met over a mountainous country, has arrived in time to synchronize with the movements of the Japanese armies, and stirring events are imminent.

PLAINS OF MANCHURIA.

Upon These, Midway Between Armies, Will Armistice Be Signed.

Washington, June 17.—Alone, on the plains of Manchuria, midway between the two great armies, the Russian and Japanese commanders will meet to sign the armistice which will pave the way for the Washington conference if the present tentative programme is followed. Exchanges on this point are now in progress between Tokio and St. Petersburg, via Washington, but no final conclusion has been reached. It was first thought a preliminary protocol might be signed at Washington providing for a temporary cessation of hostilities, but in view of the fact that this concerns directly the armies in the field, it is believed that the belligerents will agree that arrangement for the armistice be best entrusted to Linevitch and Oyama, the respective commanders in chief, who, in such event, would be telegraphed special powers to sign. This time limit has not yet been fixed, but it will be comprehensively brief, that the progress of conference may be assisted as much as possible.

Prior to the signing of an armistice, however, will come the official announcement of the Russian and Japanese plenipotentiaries. Russia has indicated that her mission will be headed by M. Neldoff, the Russian ambassador at Paris, and it is understood that the Japanese emperor has requested Marquis Ito to head the Japanese mission, although the president of the privy council, so far as is known here, has not finally accepted. Only his health would cause him to decline, in which event Field Marshal Yamagata probably would be selected in his place. Another important detail which has been the subject of informal conversations at the white house is the language to be used at the conference. Russia will ask that the French language be used; Japan will express a preference for English, and in recognition of the courtesies to be extended the plenipotentiaries by the Washington government and the diplomats believe that the English language should be accepted as the official language of the conference, to be used jointly with the French, proceedings of the conference being recorded in both languages.

Before leaving their respective capitals the Russian and Japanese missions will be received by their sovereigns and handed their credentials. The exchange of these powers will constitute the initial formality after the plenipotentiaries enter the conference room.

Clarke at Cambridge.

Austin, June 17.—Judge James B. Clarke, proctor of the state university, has gone to Cambridge, Mass., to attend the fiftieth anniversary celebration of his class at Harvard. He graduated from that institution in 1855. The students of the state university and other friends presented Judge Clarke with a railroad ticket to Cambridge and gave him assurances that arrangements had been made for paying all his expenses if he would make the trip.

Another Oil Company.

Nacogdoches, Tex., June 17.—The latest addition to the Nacogdoches oil companies is the Bonnie Oil and Pipe Line company. Incorporators are P. W. Lake, J. C. Fields, Langdon Harris and other capitalists of Waco. The company owns in fee simple several hundred acres of land in the Nacogdoches oil field, and it is their purpose to put down a well some time during the month of July.

SUNDAY MORNING, JUNE 18.

BRYAN WANTS MOTOR CARS.

Business League of That Place Asks Service to A. & M. College.

Colonel T. J. Anderson of the Southern Pacific has received a communication from the business league of Bryan requesting that a motor car service be established between that point and College Station. The distance is five miles and the traffic heavy, especially during the school term at A. & M. College.

Colonel Anderson believes that a single car can handle the traffic at this point and give an hourly service. The service will probably be established by the time school opens for the fall term.

This is regarded by Colonel Anderson as an indication of the demand that will be made for the motor cars for local service, and as an example of the localities in which they may be practically employed.—Houston Chronicle.

SPUR TRACK AT COLLEGE.

The Board of Directors Will Get the I. & G. N. to Give Them a Track.

At the recent session of the board of directors of the A. & M. College the matter of getting a track into the grounds was discussed and a decision reached to ask the I. & G. N. railway company to run a spur track into the grounds for the purpose of more conveniently delivering car lots of freight. The track will run back of the mess hall, cross the campus road that leads west and go to the power plant and the barns.

The board contemplate using lignite for fuel next year, which this move will enable them to deliver at the plant in car lots.

This is the Name Diplomats Give the Coming Peace Meeting.

Washington, June 17.—Already the epoch making meeting to be held between plenipotentiaries of Russia and Japan to discuss means of ending the war, as the Russians tentatively express it, has received a name. In dispatches to Europe from embassies and legations here it is briefly termed "the Washington conference." The announcement of the selection of Washington as the scene of peace making has caused practically the entire diplomatic corps to suspend indefinitely its programme for the summer. Despite the reiteration of both belligerents that they propose to negotiate directly with one another, European powers are preparing to follow each step of the negotiations as closely as possible. An informal announcement was made at the white house that if, after the convening of the conference here, the plenipotentiaries are oppressed by heat they would probably adjourn to some watering place in New England. This has aroused the hope of the envoys of the neutral powers that such will be the decision.

No Arrangements Entered Into.

St. Petersburg, June 17.—The foreign office announces that Russia has not entered into any arrangements regarding Morocco.

SOCIAL
and Club Matters

The pretty home of Mr. and Mrs. W. S. Howell has been the center of gaiety during commencement week, culminating in a lawn party on Wednesday night which was one of the most artistic affairs planned by an always successful hostess. Japanese decorations prevailed throughout, the lawn being brilliant with the gay colorings favored in fair Japan, shown in lanterns, rugs, stools and hammocks.

Mrs. Howell received her guests on the veranda. In line with the hostess was a large receiving party, including Misses Pauline Webb, Lucile Batte, Helen De Maret, Alice Wilson, Mary McInnis, Louise Batte and George Tabor, impersonating Jap girls. Following these came the honorees, including Misses Louise Brown of Houston; Elizabeth Denny of Galveston; Frances Gibson of Calvert; Elsie Peck of Corsicana; Norma Calhoun of Houston; Marguerite Adams of Fort Worth; Marguerite Carty of Fort Worth; Fannie Howell of Dallas; and Bessie Lee Williamson of Brenham; with their escorts; Mrs. J. Fred Smith of Dallas, Mrs. Chas. Mills of Corsicana, Misses Fannie and Emmie Fountain and a number of Bryan society matrons.

A guessing contest on the names of Jap-Russo admirals resulted in a pretty Japanese pin going to Miss Davis of College and the gentlemen's prize, a paper weight in the form of a Japanese god was won by Mr. T. K. Lawrence. A string band was stationed on the veranda, and played during the receiving hours. Lunch was served on the lawn in individual baskets, Togo ice following the salad course. Two bowls of punch were provided on the lawn.

The commencement ball was unusually pretty. The mess hall was decorated in the colors of the class of 1905, green and white. The figures 1905, in white electric globes, blazed prominently over the archway directly opposite the entrance. The grand march started promptly at 10 o'clock, being led by Captain G. C. Street, Jr., of Houston, who this year was the commanding officer of company A. Miss Jessie Garth of Bryan, beautifully gowned in white, shared the honors of the grand march with Capt. Street. More than 100 couples were in the march, and many came out later on the trains which were running every hour from Bryan. At 3 o'clock Schramm & Diehl's orchestra of Houston struck up "Home, Sweet Home." Soon after the last train departed the campus lights went slowly out—the work of the twenty-ninth session of the Agricultural and Mechanical college was a thing of the past.

One of the most pleasing social events of the week was the afternoon with Mrs. H. G. Rhodes as hostess. Mrs. Rhodes' gracious air of hospitality is infectious, and her guests are soon at ease when in her presence. A few friends had been invited on Thursday afternoon to play several games of euchre. Mrs. C. N. Williamson of Fort Worth, formerly a resident of Bryan, is enjoying a visit to Mrs. Rhodes and other friends and to her presence was due this pleasant affair. The cool, wide porch had been arranged for the comfort of the guests and the games were played there and greatly enjoyed. No prizes were given. Delicious peach cream and angel food cake was served.

A number of the young men of the Fin-Feather club arranged a delightful affair in honor of visiting young ladies Thursday evening at the Fin-Feather lake. About twenty couples and several married friends were included in the party. Boat riding on the lake and dancing at the club house were the amusements, and a Mexican supper was enjoyed. The affair was one of the most pleasant of the gay week.

Miss Lillie Reed entertained a merry party of young friends Friday evening with a lawn party at the home of her parents, Mr. and Mrs. B. L. Reed, complimentary to her friend and guest, Miss Eula Gregg of Pitts Bridge. About a dozen couples were present and greatly enjoyed the evening. Ice cream and cake were the refreshments.

A hop given complimentary to visiting young ladies was enjoyed Monday night at Elks' hall. About fifty couples were present. The grand march was led by Mr. O. E. Saunders and Miss Peeler of Austin.

Master Stuart Tabor is seriously ill at the home of his parents, Mr. and Mrs. R. G. Tabor.

Beaumont, June 17.—A special excursion train from Center and Intermediate stations on route to this city on the Santa Fe road ran off a trestle one mile north of Roganville. Two coaches were demolished, the negro porter killed and a number of passengers were reported injured. This was the first of a series of excursions to be run by the Beaumont chamber of commerce. There were 315 persons on the train, but the front coaches, which were demolished, were empty.

Birmingham, Ala., June 17.—A special to the News from Decatur says 10,000 people witnessed the execution of the three negroes, Harvey Smith, John Collins and Will Jackson. The three were hanged together, but when the drop fell the knot slipped on Smith's neck and he dropped to the ground crying out, "Thank God, I am free; yes, I am free!"

He was picked up in a semi-conscious condition and hanged a second time, the rope drawing so taut that it cut deep into his flesh. Smith was practically unconscious when the drop fell the second time, and had to be held up on the scaffold as the rope was adjusted. Both Smith and Collins protested their innocence of the murder of Miss Bloodworth, while Jackson claimed he killed Officer Steele in self defense.

In this the newspapers are upheld by public opinion, which is steering around to the support of the war policy if Japan's terms prove too hard.

Only the Nasha Ziens advises Russia that she need not balk at the payment of the indemnity, the cession of the Island of Sakhalin, the renunciation of her right to keep warships in far eastern waters or the surrender of Vladivostok, but the paper holds that Russia must retain northern Manchuria and the Vladivostok railroad.

The Bourse Gazette draws a gloomy picture of Russia's relation with France, Great Britain, Germany and Austria.

The Novoe Vremya and the reactionary Svet sound hostile words against the United States. The Novoe Vremya reiterates that Russia's chief enemies in the far east are not Japanese, but the Irish and Americans, on account of their commercial rivalry, while the Svet objects to Washington as the place of meeting for the plenipotentiaries, declaring the atmosphere there is unfriendly, and asserting that Russia's representatives will be subjected to prejudicial influences in the "capital of the enemy's ally."
